Speaker: Michael St. Pierre (Erlangen, Germany)

Team out: 10'' for 10'

Speaker: Richard D. Urman (Boston, United States)

Discussion

Focus on the Trainees Committee

The mission of the ESAIC Trainees Committee is to establish a network between the European Anaesthesiology Trainees (**the ESAIC Trainee Network**) from the countries represented in the ESAIC Council and National Anaesthesiologists Societies Committee (NASC) and to strengthen their visibility within the Society.

Conducted by the Trainees Committee, the ESAIC Trainee Network and programmes aim at securing the future of anaesthesiology and intensive care by enriching and supporting the young doctors of today, giving them an active voice to make a difference.

Therefore, **the success of the Trainee Network depends on all European Trainees**. If you are one of them, the ESAIC encourages you to join and discover how you can enrich your career by engaging in various activities and play an active role in our Society.

Meet the key stakeholders of the Trainees Committee's initiatives during dedicated ESAIC Expo sessions.
