Ultrasound-guided regional anaesthesia workshop (2) Basic blocks of the upper/lower limb and trunk

**IMPORTANT NOTICE: access is limited to pre-registered delegates

About these sessions: These half-day hands-on ultrasound workshops will focus on the basic skills in ultrasound techniques relevant to anaesthesiologists. Workshops include expert-led practice on living models. After the session, participants will have acquired the basic skills in ultrasound-guided regional anaesthesia of the upper and lower limb and trunk.

Target audience: Residents, fellows, physicians interested in regional anaesthesia and chronic pain medicine.

Chair: Roland Tomasi (Munich, Germany)

UPPER LIMB BLOCKS

Station 1: Interscalene brachial plexus and upper trunk block

Station 2: Axillary brachial plexus block

TRUNK BLOCKS

Station 3: PEC, Serratus plane and ESP blocks

Station 4: Four quadrant transversus abdominis plane block

LOWER LIMB BLOCKS

Station 5: Fascia iliaca and femoral nerve blocks

Station 6: Distal sciatic nerve and iPACK blocks
