Ultrasound-guided regional anaesthesia workshop (4) Advanced trunk blocks

**IMPORTANT NOTICE: access is limited to pre-registered delegates

About these sessions: These half-day hands-on ultrasound workshops will focus on the advanced skills in ultrasound techniques relevant to anaesthesiologists. This workshop includes a short anatomical lecture followed by expert-led practice on living models. After the session, participants will have acquired the skills in ultrasound-guided regional anaesthesia of the trunk.

Target audience: Residents, fellows, physicians interested in regional anaesthesia and chronic pain medicine.

Chair: Roland Tomasi (Munich, Germany)

Anatomical introduction

Station 1: Lumbar neuraxial block

Station 2: Thoracic paravertebral block

Station 3: ESP and retrolaminar blocks

Station 4: PECs and Serratus plane block

Station 5: Quadratus lumborum blocks (QLB1, 2 and 3)

Station 6: Abdominal wall blocks
