### Ultrasound guided regional anaesthesia workshop (5) Advanced upper limb blocks

\*\*IMPORTANT NOTICE: access is limited to pre-registered delegates

**About this session:** This half-day hands-on ultrasound workshop will focus on the advanced skills in ultrasound techniques relevant to anaesthesiologists. This workshop includes a short anatomical lecture followed by expert-led practice on living models. After the session, participants will have acquired the skills in ultrasound-guided regional anaesthesia of the upper limb.

**Target audience:** Residents, fellows, physicians interested in regional anaesthesia and chronic pain medicine.

**Chair:** Roland Tomasi (Munich, Germany)

#### Anatomical lecture

**Station 1: From the interscalene block to phrenic nerve sparing blocks:  
Suprascapular nerve block - Axillary nerve block**

**Station 2: Supraclavicular BP block and upper trunk block**

**Station 3: Proximal thoracic ESP block for shoulder and clavipectoral  
fascia block for clavicle**

**Station 4: Proximal infraclavicular: Costoclavicular and retroclavicular BP  
blocks**

**Station 5: Axillary BP blocks plus intercostobrachialis nerve block**

**Station 6: Rescue blocks of the upper limb**
