

Mechanical thromboprophylaxis

When, how and why.

26th May
2024

11 am
CET

Room
11B

Speaker:
Prof Juan V. Llau Pitarch
MD, PhD, Spain

Chairperson:
Eleftheria Pervolaraki
PhD Global Medical Affairs, USA

Join the Cardinal Health workshop “**Mechanical thromboprophylaxis: when, how and why**” with Prof Llau to learn more about the benefits of mechanical prophylaxis against venous thromboembolism (VTE).

During this session we will present evidence of the efficacy of mechanical prophylaxis, when used timely and peri operatively.

Take this chance to discuss your clinical challenges in the field of venous thromboembolism.
