Ultrasound guided regional anaesthesia workshop (5) Advanced upper limb blocks

**IMPORTANT NOTICE: access is limited to pre-registered delegates

About this session: This half-day hands-on ultrasound workshop will focus on the advanced skills in ultrasound techniques relevant to anaesthesiologists. This workshop includes a short anatomical lecture followed by expert-led practice on living models. After the session, participants will have acquired the skills in ultrasound-guided regional anaesthesia of the upper limb.

Target audience: Residents, fellows, physicians interested in regional anaesthesia and chronic pain medicine.

Chair: Roland Tomasi (Munich, Germany)

Anatomical lecture

Speaker: Rainer J. Litz (Augsburg, Germany)

Station 1: From the interscalene block to phrenic nerve sparing blocks: Suprascapular nerve block - Axillary nerve block

Instructor: Rainer J. Litz (Augsburg, Germany)

Station 2: Supraclavicular BP block and upper trunk block

Instructor: Roland Tomasi (Munich, Germany)

Station 3: Proximal thoracic ESP block for shoulder and clavicular fascia block for clavicle

Instructor: Oliver Vicent (Dresden, Germany)

Station 4: Proximal infraclavicular: Costoclavicular and retroclavicular BP blocks

Instructor: Susanne Sujatta (Bayreuth, Germany)

Station 5: Axillary BP blocks plus intercostobrachialis nerve block

Instructor: Esther Kempter (Munich, Germany)

Station 6: Rescue blocks of the upper limb

Instructor: Thilo Geiser (Murnau, Germany)
