Ultrasound guided regional anaesthesia workshop (6) - Advanced lower limb blocks

**IMPORTANT NOTICE: access is limited to pre-registered delegates

About this session: This half-day hands-on ultrasound workshop will focus on the advanced skills in ultrasound techniques relevant to anaesthesiologists. This workshop includes a short anatomical lecture followed by expert-led practice on living models and phantoms. After the session, participants will have acquired the skills in ultrasound-guided regional anaesthesia of the lower limb.

Target audience: Residents, fellows, physicians interested in regional anaesthesia and chronic pain medicine.

Chair: Roland Tomasi (Munich, Germany)

Anatomical introduction

Speaker: Rainer J. Litz (Augsburg, Germany)

Station 1: Ankle block

Instructor: Joana B. Mourão (Porto, Portugal)

Station 2: Proximal lumbar plexus blocks

Instructor: Oliver Vicent (Dresden, Germany)

Station 3: Anterior hip capsule (PENG) block

Instructor: Roland Tomasi (Munich, Germany)

Station 4: Proximal sciatic nerve block

Instructor: Rainer J. Litz (Augsburg, Germany)

Station 5: Distal sciatic nerve block

Instructor: Thilo Geiser (Murnau, Germany)

Station 6: iPACK block

Instructor: Luís Guilherme Casimiro (Porto, Portugal)
